

About

I'm a Credit Risk Analyst with a strong STEM background, thanks to my studies in physics & blockchain technologies and my experience as a fullstack developer. I was also a professional trained cook (also experienced in restaurant reception) as I studied in a Hospitality High School. That allowed me to work abroad while I was teenager, granting me memorables experiences with several people of different cultures. In my spare time I teach physics and mathematics to High School students as a freelancer.

Maurizio Falconi

Credit Risk Analyst

I collected lots of working experiences in hospitality field, therefore i chose to cut it off some from my resume, due to my working goal purposes. If you are interested to check it out my full working experience, skills and certifications you can visit [falker47/github.io/myresume](https://falker47.github.io/myresume)

Note: when it appears the icon next to an activity you can click on it to see the certification. Every underlined text has its relative link.

Freelance Activity

January 2023 - present day

Private STEM Teacher

I'm teaching physics and mathematics to High School students as a freelancer. I'm following **10+ students** with a current average of **25h** of lessons **per week**. You can reach my Teacher Accounts on [LeTueLezioni](#) and [SuperProf](#) to check my students reviews, or [my site](#) that I developed on my own
